School Administration Defends Annual Budget

The Administration of Arlington's Public Schools this week defended its position relative to the School Budget to be acted on at the Annual Town Meeting in March by submitting for publication in this issue of the News a chart comparing the percentage of the tax rate spent on education in 1961 with similar figures in other communities.

For all towns in the Commonwealth with a population of 13,000, the median or middle percentage figure is 49 per cent.

Percentage of Total Rate Spent on Education

The Board of Selectmen Monday night referred to the Town Counsel a request of members of the Veterans of Foreign Wars in connection with possible transfer of land at the corner of Winslow and Russell Ter. for the purpose of construction of a new building.

The Veterans were defeated on the floor of Town Meeting a year ago on a similar request.

The Selectmen explained that since such land is Town Property by eminent domain taking the transfer would first have to pass the approval of the several Town Boards and Commissions which might see a

To Advertise Bids For Collection Of Garbage

Town Manager Edward C. Monahan this week expressed hope that the advertising for the collection of garbage could be

out within a week, and that collection of garbage by a contractor could begin by early spring.

Mr. Monahan told newsmen at a press conference Tuesday morning that although testimony of experts have indicated that the inclusion of garbage into the area has been a good thing, it is felt that the entire situation should be re-explored.

When asked if he could anticipate how much any possible new bid might be, the Manager stated that he hoped that it would be less than the bid of \$135,000 of last fall. He did, however, state that he believed that any bid would be higher than the amount paid the contractor during the previous three year contract.

The contractor was paid \$84,400 under the contract which expired last fall.

The Manager explained that such a low bid seems impos-

sible now under present conditions.

He noted that garbage is now

Bob Bartholomew	0	3	3
Bob Green	1	2	3
Paul Ciampa	2	1	3

Bob Heavern, the classy right winger for the Wings, pulled the "hat trick" and pushed the Wings into a first place tie with the Maroons. All three of Heavern's goals were beauties and all were scored in about the same manner. He picked up the puck about center-ice and worked his way around the "hawk" defense to ride in all alone on the hapless goalie. He tucked the puck neatly into the left pocket of the net with precision like shooting. Bob Green, tallied the other goal for the Wings, assisted by the league's number one goal-setter, Bob Heavern.

Rangers - 1 Rockets - 0

The Rangers won their second game of the year by edging the Rockets 1 - 0. Eric Norton notched his first goal of the campaign by slapping in his own rebound. Jim Kenney earned an assist on the score. Ed Hurd playing his first game in the nets turned back several Rocket attacks.

Maroons - 1 Bruins - 1
Billy Burke, the scrappy goalkicker for the Bruins, stopped Jim Largeton on a break-away play and helped the Bruins to tie the strong Maroons. Brian Titliah put the Maroons into an early lead when he stole the puck from a Bruin defenseman and blasted a screened shot into the net. Paul Ciampa, a real hustler for the Bruins, poked the puck away from a Maroon player at the Maroon blueline, raced in close, and calmly drilled the puck between the goalie's pads.

Canadiens - 2 Leafs - 2
The Leafs went out front on goals by Jim Smith and Tim Russell. Dick Ronan assisted on Smith's goal. The Canadiens fought back and Tom Galvin registered when he rode in close and drilled a beauty into the top of net. Barry Wright tied the game when he fired one from the center zone which sneaked through the goalie's pads. Gurly Ellos played his usual steady game in the Canadian net.

Don't Abuse Your Voting Rights

Every registered voter of a community in the Town of Arlington has the right to run for election to Town Office. It is certainly a free country and one of our most highly prized privileges is this right to run for public office. But how many abuse this privilege, and how many cause others to abuse these rights. We need the most qualified possible persons in office to make our Town government function as well as possible. Many residents of the community are potential vote getters for one reason or another, but do they possess the qualifications to hold office? If they do it as their civic duty to seek office, if they do not possess such qualifications it is likewise their duty not to seek such office, because in so doing they could and most likely would take away votes from qualified candidates. If elected, they possibly would hinder the efficient operation of their branch of the town Government. Thus, when it is election time, and it is but a month away, don't just vote for a man, because he happens to have a nice sounding name or (for ladies) because he is attractive, or because he is of the same nationality, vote for him (or her) if his qualifications are in your honest opinion the best possible of all candidates seeking election to that particular office. Ask yourself whether he is abusing his privilege of running for office or whether he is seeking the office for kicks, or whether someone did all the work to get his name on the ballot for their own personnel gain with no thought of the end results. And again search your mind as to whether he is planted there by another candidates simply to grab off a few votes from a potential winner. The battle for public office should be won and/or lost on the merits of the candidates involved whether there be a man to man contest between two candidates or a "pitch" battle among several.

The winner should be the man who is most capable of all those seeking the position, not the man who has done the most political maneuvering.

Don't be fooled by those who seek office for their own personal gain alone, or who are in the race to hurt the chances of another candidate, or who are candidates because of the political whims of another.

From the beginning of political time, excellent candidates for public office have refused to do their part for the community or have refused to go back for a second try because of the abuse of the right of seeking public office which some residents feel is the means to reach the end.

You, as a voter, be you Democrat, Republican or Independent can defeat such obvious political maneuvering by casting your vote for the man who is most qualified to do the job in the best interests of the Town.

NEUTRAL OBSERVER

Maneuvering, deals, candi- dates being thrown in to pull a few votes away from the favorite, etc., etc., have been long-standing practices in pre- elections in Arlington and in other communities over the years, but certainly the farce made of the rush for political office in the last week is some- thing that should in some way be brought to the attention of the voters of the community.

It should be brought to their attention so that in no future election campaign might the same situation exist.

In previous election years at the Town Clerk's office the Clerk automatically wrote in the "little book" names of per- sons taking out papers and office for which they would be running. However, after the mass con- fusion at last year's March election, the Clerk, and rightly so, signified that only those so desiring their names to be written in the book have them so written. Thus although several candidates were known to have papers out during the last month only a handful of names were actually written in the book as candidates.

Even this did not stop the farce which was perpetrated on the public this year when the names of three practically un- known residents of the com- munity were filed as candidates for the School Committee.

One, is evidently a qualified person in his own right in that he at least was elected a Town Meeting member by a fairly comfortable margin in his own precinct two years ago.

The second is a candidate whom the Observer named as a

potential over a month ago. He is a candidate who has had his name placed before the public in a last minute filing for office in the past.

The third candidate, so the Observer understands didn't even realize he was running for School Committee, but instead felt he was running as a Town Meeting member.

The Observer is not attempt- ing to delve in any way into the qualifications of any or all of these men. Possibly they are as qualified as others who have run for office in the community in the past--and in some in- stances more qualified.

Did these candidates file their own papers? Did one file for all three? Not the way the Observer hears it. All papers were left or filed at the Clerk's office by a fourth party--and why?

There are three incumbents and three other candidates seeking election to this office. Certainly all, if nothing else, have the best interest of the community at heart while seek- ing office.--And the Observer is certain that if the facts were to be checked by a disinterested party, it would be found that all either filed their own papers or had duly authorized workers on their behalf file for them.

Two changes, the Observer feels, would help eliminate this making a joke of filing papers and the filing by last minute candidates.

First--up the number of signa- tures required for filing. A new law which has been in effect only two years requires only 50 signatures for filing. Previously one per cent of the total vote of the most recent

To The Editors

To The Voters of Precinct 7: It is with sincere regret that I write this letter. It now be- comes apparent that the call to active duty and subsequent deployment overseas of my National Guard Unit will prevent me from attending this year's Town Meeting.

With this in mind I would like to resign my membership so that the vacancy can be filled and your voice in Town Govern- ment not lost.

Thank you for giving me the opportunity to serve. I hope to return soon and once again ask you for this cherished oppor- tunity.

Sincerely,
Edward Dever

Kent's Plan For Progress

Charles R. Kent, Arlington school committeeman and candidate for election to the board of selectmen has issued this statement regarding his candidacy.

"As a candidate for the office of selectman I believe that it is incumbent upon me not only to discuss my qualifications for the office but also to acquaint the people of the town with my plan for progress in the town of Arlington. During the course of the campaign, issues will arise that I will not hesitate to speak upon. I believe the citizens are entitled to know the position that candidates for public office hold in regard to controversial matters. At the present time the issue of 'Spot Zoning' is on the scene. In some instances under the guise of 'broadening the tax-base' proposals have been presented to the planning board for action at the annual town meeting that are definitely in my opinion flagrant attempts at spot zoning. I am emphatically opposed to 'Spot Zoning' under

any guise and I take this stand not just for the present campaign but for the future. Under the General Laws of the Commonwealth 'Spot Zoning' is an illegal act and I shall never vote to permit the Town of Arlington to become a party to such an action. It is my intention to be present at all hearings on zoning questions conducted by the planning board to acquaint myself with the request and to learn first hand the feelings of the people affected.

Much has been said regarding a Public Bus Shelter in Harvard Sq. for Patrons of the MTA waiting for Arlington busses. I am certain that the present selectman and our local State Representative have done all in their power to attempt to have this issue resolved and have a shelter erected, however I shall, if elected, not only work toward this end but will request a hearing with MTA General Manager McLernon and present him with Arlington's demand for action. Another issue of evident concern to residents in the vicinity of the sanitary land fill area on Rte 2A is the inclusion of the garbage in the disposal area. I can understand their reasons for concern and if elected, I shall request that a report be made by an impartial expert on

sanitary land fill operations concerning the desirability of including "Garbage" in a sanitary land fill. The Town of Arlington has always attempted to provide good public service and it is my intention to see the services remain of the highest standards.

The Town of Arlington Planning board is awaiting the report of its consultant on a master plan for the future growth of Arlington's economic base. I believe that we should take no drastic action regarding Arlington's future course until we have an opportunity to study and digest this report.

Arlington can face the future with confidence only if it has confidence in its Public Officials. I offer to the citizens my educational background, my experience in Public Service, my desire to serve, and my willingness to take a stand in the "Public Interest".

He said that any bids would be on one, two or three year terms.

When asked if this new thinking in connection with the possible collection of garbage by a contractor once again meant that the idea of utilizing an incinerator sometime in the near future, has been abandoned, the Manager answered no.

He did however note that Belmont and Somerville have been having difficulties with the operation of their incinerators, and that Belmont presently is now employing a contractor to bury its garbage on a Waltham farm.

use for the property in the future.

If such Boards have no objections to the transfer, then such transfer can be deemed legal, if however, even one Board is in opposition then the transfer cannot be made.

The Development Commission and Planning Board opposed the transfer a year ago.

William Hughes, present commander of the Post, explained that because of the possibility of the present quarters of the Post in the Old Railroad Station being torn down to make way for a proposed parking area in the Center, the group would necessarily have to move out.

In most recent years, the Vets were housed in the Old Town Hall, which was torn down for the relocation of Mystic St.

Selectman Greeley, a member of the Post himself explained to those present how he had opposed the move to the present location because of the pending second move.

Another member of the Post George Basseos told the Board that there is a possibility that a move to a section of the Chestnut Hall could be arranged, but that this would be a last resort.

The land which the V.F.W. is seeking is 4031 sq. feet. Selectman Arthur Saul asked those representing the Post if they could afford to put up a new building now? He also emphasized the need for plans for the construction.

The question of the transfer will come up for Town Meeting action under Article 103 of the Town Warrant.

Second—establish a ruling which would cause all candidates to bring in their own papers for filing.

Christopher J. Cammarata of 106 Spring St. officially announced his candidacy for selectman this week.

Mr. Cammarata has been a resident of Arlington for forty three years, and a graduate of the Arlington School System of which he is proud. He furthered his education at Northeastern School of Law and Accounting for two and a half years, and at the Industrial Technical School. These latter schools were attended at night after work.

He is married to the former Julia Tabrizio of East Boston and they have two children, Christine and Anthony, 14 and 12 respectively.

Mr. Cammarata has been a home owner since 1944. His business at one time was located in Harvard Square, Cambridge. He was the treasurer of the True Brothers Inc. and Cammarata Valet. Both of these stores were headed by his father Anthony Cammarata of Fairmont St., East Arlington, now deceased. His mother Mrs. Rosaria Cammarata still lives at that address.

In 1950 he left his father's business and opened his own company at 888 Mass. Ave. opposite Arlington High School. He has been in business at the same location for twelve years.

Mr. Cammarata has been active in many civic affairs including the Red Cross, Boy Scouts, Neighborhood Commission and at the present time committee man of troop 341 at the Brackett School. He has been a United Fund worker, an A.Y.A. Sponsor Little League Sponsor and Boys' Club Sponsor. He has been active in the Holy Name Society of St. James Church, St. Camillus Church and at the present time he is

member of St. Agnes Holy Name Society.

Mr. Cammarata is a member of the Arlington Republican Town Committee, Knights of Columbus Council 109 of Arlington and Arlington Barber Shop Quartet Society.

He believes that Arlington has arrived at the Cross roads. Prior to his announcement as candidate for Selectman he had spent countless hours and days making a survey of the needs that by which Arlington would benefit. His visits took him to officials of the town of Arlington and a former selectman, the Robbins Library and also to the people of Arlington.

Mr. Cammarata believes that Arlington has progressed as a top ranking town which would make other cities or towns of comparable size with a population of 50,000 to 55,000 people look "sick."

"Our town manager form of government which was instituted in 1953 was one of the smartest moves that this town could have taken," he states. "Unfortunately many people of Arlington don't take the time out to see how far we have progressed."

"Fortunately for us we have several civic minded organizations which have taken the time out to make exhausting studies of our town and have been able to present these to the people of Arlington.

In conclusion his conscience enables him to say with all humility and with firm convictions and faith, that the citizens of Arlington will know what choice to make for Selectman on March 5 and if he is successful he promises to carry out the duties to the best of his ability, if the citizens of Arlington would trust him with their private affairs.

Fredo, Fraser Score Two As Locals Keep Hopes Alive

Arlington high school's hockey team scored four goals in the second stanza to move back into a second place tie with Cambridge Latin six big points behind.

Chabator moved Rindge Tech out front at 1:45 of the opening period scoring unassisted, beating sophomore net-minder Bill Langone with a 25 footer.

Arlington broke the contest wide open in the second stanza when Bob Fredo poked in two quick markers. His first tally came just after the opening of the second stanza at the 14 second mark; this one was unassisted.

At the 53 second mark he tallied again, assisted by Lax and Carr.

Eddie Fraser tallied the first of his two goals at the 7:06 mark of the same stanza with assists going to O'Brien and Kierstead.

Pete Lax completed the Arlington second period scoring at 8:53 as he flipped in an unassisted marker.

Kierstead scored Arlington's fifth marker at 2:43 of the final canto with an assist going to Clarke. Fraser scored his second goal at 4:18 with O'Brien and Carr picking up assists.

Cambridge Latin and Arlington still have very slim chances of edging out Newton for the top spot in the loop; but they are very slim indeed.

Newton has but three games left, the two second place teams, four each. However, Latin and Arlington play each other in a makeup game later this month.

Local Nurses

Complete. Three

Months Course

Thirteen nursing students, part of the Regional Nursing Program at Newton Junior College, have just completed three months of training and classroom work at Symmes Hospital as part of their field training. They were employed in various departments throughout the hospital, under the supervision of staff members and their director, Miss Virginia Allen. This program, developed by the United Community Service of Mass. was begun to encourage resourceful men and women to make a career of nursing. At the end of two years, the student is eligible to take the licensing examinations necessary to become a Registered Nurse, (R. N.) in Mass. Newton Junior College, which operates under policies approved by the Newton School Committee and the Mass. Board of Collegiate Authority, awards the graduate an Associate in Science (A.S.) Degree.

Symmes has been a participating hospital for three years and feels strongly that a program of this type, open to qualified men and women as well as to young people just out of high school, will help immensely in meeting the increasing need for skilled help in the hospitals, clinics and medical centers of New England.

Dailey Seeks Re-election

Dr. James W. Dailey of 29 Churchill Avenue made a formal announcement of his candidacy for reelection to the School Committee this week. Dr. Dailey is professor of Civil Engineering at M.I.T. where, in addition to his teaching responsibilities, he is Research Supervisor of the Hydrodynamics Laboratory. He is also a practicing engineer and consultant to industry.

"As I complete one term of three years service on the Arlington School Committee," Dr. Dailey stated, "two facts stand out to be reemphasized continually."

"The first is the immense importance of our educational system to us in operating our society and solving its problems. It means a grave responsibility for school committees to meet the needs for the apparatus of instruction and to foresee the kinds of education the future will demand."

"Secondly, because of the unbelievable pace of change the world is undergoing, the demands on our educational system increase and shift continually. The job of keeping up calls for viable and flexible policies wisely developed from real experience as well as sound knowledge."

As to his experience on the Committee, Dr. Dailey commented, "I feel a real satisfaction in having participated in the many improvements in Arlington's school program during the last three years. Some special changes include the new Technical and Vocational High School program, the Harvard-Arlington language instruction van for elementary schools, the High School language laboratory, the new mathematics program for all levels, and the reinforced science programs. In some cases, such as the language instruction van and the language laboratory, I was privileged to be of special assistance."
